

SPATIAL BIOLOGY SEMINAR

Part of the **Novel Technologies Seminar Series** from the CMMC

THURSDAY 7TH MARCH 2024

STARTS 11AM

CMMC Building (Building 66)

CMMC Seminar Room

Spatial Phenotyping Solutions: From Spatial Discovery to Spatial Signatures at Scale

PRESENTER:

Sascha Seidel PhD,
Field Applications Specialist, Akoya Biosciences

Join this seminar to learn how you can scale up your spatial discovery efforts and rapidly translate those discoveries into actionable spatial phenotypic signatures. Hear about a full continuum of spatial phenotyping solutions to support discovery, translational and clinical research applications that can map every cell, across every tissue, in just a few minutes.
