

WEDNESDAY MARCH 20, 2024
1:00 PM, ONLINE VIA ZOOM

PRESENTATION

Introduction to Cytolution
your all-in-one software solution
for automated
high-parameter flow analysis.

SPEAKER

Can Pinar
Founder&CEO
Cytolytics GmbH

CYTOLUTION HIGHLIGHTS

Cutting-edge algorithms like Clustering, UMAP, TSNE, CYTO, and others deliver deep insights into your data without the need for programming or extensive parameter tweaking.

Cytolution automates all preprocessing steps, including batch-effect correction, and transformation, streamlining your research workflow and saving time.

Enjoy **enhanced accuracy and consistency** in data analysis with unbiased data cleaning and clustering techniques.
