

Join Us for or Seminar at CMMC Cologne about

Optimized and Scalable Workflows: From Cell-Based Assays to qPCR

Engage with our Experts: Join Our Talks and Discussions

**The Future of Cell-Based Assays: Scalable, Unbiased,
and Automated Workflows from Cell Painting,
Compound Screening to Organoids**

Jing Zhang, PhD, Field Application Scientist, SPT Labtech

**From RNA Extraction to RT-qPCR Results: Optimized
End-to-End Workflows with NEB's Luna & Monarch Reagents**

Karl von Laer, PhD, Technical Support Manager, New England Biolabs

Event Details

Date & Time:

17th of March 2026, 12:00 PM

Location:

CMMC Seminar Room, Building 66,
Robert-Koch-Str. 21, 50931 Cologne

Invitation

Join us for insightful presentations and discussions, with snacks and drinks.

Learn how to optimize and scale your research workflows.

Stop by our info booth in the lobby to talk through your lab challenges with our teams.
