

Western Blot Workshop

Accelerate your Workflows!

Thursday 16th of April 2026, 13:00-14:00

CMC Seminar Room, Building 66, Robert-Koch-Str. 21, 50931 Cologne

The CMMC and Proteintech, the antibody experts, are hosting a workshop for Western Blotting. This workshop will help you understand the science behind the workflow, optimise your protocols, and tackle complex troubleshooting.

Are you looking to make your Western Blot workflow faster and more efficient? Learn how Proteintech's next-generation solutions can reduce total assay time from 5 hours to just 2 hours - without compromising data quality.

Features:

- In-depth Q&A
- Certificate of attendance
- Free samples of WB accessories (email freya@ptglab.com)
- Free goodies and sweets
