

INVITATION

AYOXXA's LUNARIS™ Protein Multiplexing Seminar

Understanding Complex Biology from Bench to Bedside

LUNARIS™ technology for multiplex protein analysis

LUNARIS™ is an innovative protein multiplex analysis technology enabling translational research in biomedicine focusing on inflammation, immuno-oncology, and ophthalmology

- > Ease of readout and handling
- > Reliable quantification of biomarkers from model to man – from lab to clinic
- > Enabling multiple analyses from precious samples for volumes as low as **3 µL**

Agenda

11:00 am	AYOXXA's LUNARIS™ Protein Multiplexing Platform – An Introduction <i>Dr. Oliver Gresch, Head of Application Specialists</i>
11:20 am	LUNARIS™ Technology – Analyzing different sample types <i>Dr. Isabell Koxholt, Field Application Specialist</i>
11:50 am	Open discussion

Date:	Time:	Location:
March 13	11 am – 12	Center for Molecular Medicine Cologne Seminar Room 1

About AYOXXA:

AYOXXA Biosystems is dedicated to the vision of enabling success in translational research.

Building upon an innovative technology, our mission is to develop robust assay panels for translational research applications. Our LUNARIS™ multiplex protein analysis platform is optimized for translating knowledge generated in clinical

LUNARIS™ products:

LUNARIS™ Kits
LUNARIS™ Reader
LUNARIS™ Analysis Suite
LUNARIS™ Services

Your Benefits:

Integrated & scalable
Transparent assay outcomes
Superior data quality
Conservation of precious samples

Headquarters GERMANY

AYOXXA Biosystems GmbH
BioCampus Cologne v
Nattermannallee 1, 50829 Köln, Germany
Phone: +49 (0) 221 22 25 29-0
