

Western Blot and Immunoprecipitation Workshop

Wednesday 29th November 2023, 1pm CET

CMMC Seminar Room - Robert-Koch-Str 21, 50931 Koeln

Join us to take a look into IP and Western Blot workflows, and learn the science behind each step. Understanding each aspect will help you assess your experimental procedure and learn where small changes can have big effects on results.

Discover how **chromotek**® Nano-Traps can enable reliable, one-step immunoprecipitation of tagged proteins!

Features:

- In-depth Q&A
- Refreshments
- Certificate of attendance
- Free antibody / Nano-Trap sample*

*Only new customers can request a free sample. Account manager retains the right to withhold free samples.
